

A networking platform for the development and usage of new approach methodologies

aspis-cluster.eu/aspis-academy/

The **ASPIS Academy** is a network for early-stage researchers (ESRs) who are into developing and using New Approach Methodologies (NAMs) in toxicology. We're all about boosting the careers of ESRs by giving specific training, making sure everyone gets a fair shot, and setting up a space where the awesome ideas and dreams of a new generation of young scientists can shine. Let's make NAMs a lot more fun!

What is ASPIS?

ASPIS brings together the three consortia funded under the European Commission's call for projects advancing the safety assessment of chemicals without the use of animal testing.
